Ensure compliance with legal, regulatory, ethical and social requirements

Overview

Organisations must show that they act responsibly in relation to their staff, customers, investors and the communities in which they work. All types of organisations must obey the law in key areas such as health and safety, employment, finance and company law. Many organisations also have to work within specific regulations for their industry and ethical frameworks. Organisations who want to maintain a good reputation also have to take account of the views of people in their communities on a whole range of issues such as the environment and other ways in which the organisation affects people's quality of life.
