

LANAnC20

Facilitate pregnancy in animals

Overview

This standard covers the facilitation of pregnancy in animals using natural methods or artificial insemination in accordance with the breeding programme.

You must maintain the health and welfare of the animals and recognise any health problems.

You need to be aware of your own limitations and ensure that you meet the relevant legal responsibilities for the duty of care under animal health and welfare legislation.

This standard is for anyone who facilitates pregnancy in animals.

Performance criteria

You must be able to:

- P1 maintain your own professional conduct and ethics and work within the limits of your own authority, expertise, training, competence and experience
- P2 ensure your work is carried out in accordance with instructions and the requirements of the breeding programme
- P3 comply with relevant animal health and welfare and other animal-related legislation and codes of practice at all times
- P4 assess how the needs of the animals may be provided for while under your duty of care
- P5 carry out all work in accordance with relevant environmental and health and safety legislation, risk assessment requirements, codes of practice and company policies
- P6 maintain appropriate levels of hygiene and bio-security in accordance with workplace procedures
- P7 deal with waste safely and correctly in accordance with workplace procedures
- P8 select animals in accordance with the breeding programme
- P9 check the physical condition of the animals, their readiness for breeding, and prepare the animals in the appropriate manner
- P10 facilitate fertilisation according to the method specified in the breeding programme
- P11 check and confirm pregnancy and take appropriate action, in relation to husbandry requirements and reporting requirements
- P12 maintain the health and condition of the breeding animals throughout the reproductive cycle
- P13 observe and recognise the behaviour of the animal and record as appropriate
- P14 interact with the animal in a humane manner that minimises stress and allows observation to be carried out safely
- P15 promote the animal's welfare at all times and adapt your own, or others, behaviour if necessary to avoid creating undesirable behaviour
- P16 identify behaviour that may indicate welfare or other problems and report these to the appropriate person
- P17 keep accurate and up-to-date records as required by relevant legislation and the organisation
