Care for mothers and young animals in a Home Office designated establishment

Overview

This standard covers the care of mothers and young animals in a Home Office designated establishment.

You must be able to promote the health and welfare of the animals through monitoring the appearance, posture, movement and behaviour of mother and young, and take the appropriate action.

This standard is for animal technologists who care for mothers and young animals in a Home Office designated establishment.

Care for mothers and young animals in a Home Office designated establishment

Performance criteria

You must be able to:	P1	use safe working practices and wear appropriate personal protective equipment
	P2	maintain appropriate levels of hygiene and bio-security
	P3	monitor the health and condition of the animals, and report any
		problems promptly to the appropriate person
	P4	prepare and maintain accommodation for mother and young animals in accordance with instructions
	P5	provide the animals with suitable care in accordance to their
		requirements and instructions
	P6	ensure the animals have access to food and water
	P7	carry out weaning/separation where appropriate
	P8	handle and sex neonatal animals
	P9	prepare and maintain accommodation for animals after separation
	P10	keep accurate and up to date records as required by relevant legislation and the organisation
	P11	deal with waste safely and correctly in accordance with legislation
	P12	comply with legislation relating to the care and welfare of animals in a Home Office designated establishment
	P13	carry out all work in accordance with relevant environmental, health and safety legislation, codes of practice and company policies
