## Manage the preparation and care of horse drawn vehicles or agricultural implements

---

### Overview

This standard is about managing the preparation and care of horse drawn vehicles or agricultural implements for use, as well as being able to identify a range of horse drawn vehicles/implements and their parts. It involves being responsible for the cleaning of vehicles or implements to the appropriate standard for the intended use, carrying out routine checks for wear, tear or damage and replacing unfit items prior to use.

It includes being able to prepare and load horse drawn vehicles/implements for transport to events, and clean, maintain and store them between uses.

You will need to be fully aware of the importance of health and safety in connection with this work.

You will need to be able to recognise hazards and assess risks within the workplace.
