

# LANFIM7

## Assist people to comply with fisheries management requirements

---

### Overview

This standard is about ensuring compliance with fisheries management requirements. It covers the provision of information to ensure compliance and the completion of monitoring activities to identify signs of illegal fishing.

This standard requires the ability to complete routine patrols at day and at night.

This standard requires that you carry out work safely in line with legal health and safety requirements.

The legislation controlling the application of this standard will vary depending on the location of the fishery within England, Wales, Northern Ireland or Scotland.
