
Overview

This standard is about identifying and maintaining the condition and appearance of indoor or outdoor plants and planted designs to optimise their sales value.

The work described in this standard would be carried out under the direction of a supervisor.

LANFLR1

[Identify and maintain the condition of plants and planted designs]

Performance criteria

You must be able to:

- P1 Identify the relevant plants accurately.
- P2 Check the conditions of plants to maintain their saleable value
- P3 Identify any plants that should be removed from sale and report this to the appropriate person
- P4 Remove the dead or damaged material from plants as instructed
- P5 Maintain suitable conditions for the plants as instructed
- P6 Follow stock rotation plan
- P7 Provide food and water as instructed to maintain the condition of the plants
- P8 Keep the work area clean and tidy and work safely
- P9 Dispose of waste in the correct manner

Knowledge and understanding

You need to know and understand:

- K1 Botanical and common names for a range of plants
- K2 Seasonal availability of a range of plants
- K3 Indicators of pests and disease and the action that should be taken if they are discovered
- K4 Methods for removing dead and damaged material from plants
- K5 Irritant and poisonous plants and how they should be handled
- K6 The simple botanical functions of the plant
- K7 Different methods of providing food and water to plants
- K8 The care and maintenance methods for a range of plants
- K9 How environmental conditions including temperature, humidity, light and water/food supply, affect fresh materials
- K10 The importance of stock rotation
- K11 The correct procedure for disposal/recycling of waste packaging and plant material
- K12 Your responsibilities under relevant health and safety legislation
