
Overview

This standard is about planning floristry designs to meet customer requirements. The planning process will involve using 'sources of inspiration' to interpret the customer requirements into an appropriate design.

This standard is suitable for a florist working with some degree of autonomy.

**Performance
criteria**

You must be able to:

- P1 Identify the customer's requirements from available information
- P2 Produce plans which are realistic and based on valid and reliable information, methods and resources
- P3 Research and use 'sources of inspiration' to create floristry designs to meet customer needs
- P4 Communicate your design concept to those who need to know
- P5 Identify materials that are appropriate to the customer's needs, the selected design and seasonal availability
- P6 Identify, where necessary, the need for modifications and agree these with the customer

Knowledge and understanding

You need to know and understand:

- P1 How to interpret customer requirements using:
 - P1.1 Sources of information
 - P1.2 Technical skills
 - P1.3 Budget/costing
- P2 The availability and suitability of an extensive range of materials according to season and price, where appropriate
- P3 How to produce plans of the floristry design in an appropriate format to meet customer needs
- P4 A range of sundries and mechanics for designs and their tolerances
- P5 The range of techniques for the construction of designs and the use of the plant material
- P6 How to use the international design schema extensively to develop floristry design
- P7 International floristry design terminology, concepts and principles
- P8 What the principles of design are and what is meant by each term (balance, proportion, scale, rhythm, contrast, dominance and harmony)
- P9 What the elements of design are and what is meant by each term (form, line, colour, texture and space)
- P10 The history of design styles and their impact on design
- P11 How to source sustainable materials for use within floristry designs
- P12 How to use materials sustainably in floristry designs
