
Overview

This standard is about assembling and reviewing basic floristry designs. It covers the selection and preparation of a small repertoire of designs within the floristry industry.

**Performance
criteria**

- You must be able to:*
- P1 Select and prepare materials required to produce basic floristry designs
 - P2 Select and use suitable tools and equipment
 - P3 Assemble design using appropriate techniques and principles, according to instructions
 - P4 Review finished design and make adjustments, if needed, to meet requirements
 - P5 Maintain health and safety of self and others during work
 - P6 Dispose of waste in the correct manner
 - P7 Store designs in a suitable environment/location prior to use, sale or delivery

Knowledge and understanding

You need to know and understand:

- K1 What is meant by a 'design' or the term 'design' in a floristry context
- K2 What the principles of design are and what is meant by each term (balance, proportion, scale, rhythm, contrast, dominance and harmony)
- K3 What the elements of design are and what is meant by each term (form, line, colour, texture and space)
- K4 How each of the principles and elements is identified and used in floristry design
- K5 The components of a standard colour wheel and the organisation of colours into recognised colour harmonies
- K6 How to estimate the time required to make the floristry design
- K7 How to identify a wide range of plant materials suitable for a range of uses
- K8 How to select and prepare suitable materials to produce floristry designs e.g. fresh, preserved, sundry items
- K9 Your responsibilities under relevant health and safety legislation
- K10 How to handle materials in a manner that minimises wastage, damage and contamination
- K11 The basic techniques to follow when assembling a floristry design
- K12 How to review the finished product against design specification or instructions
