

LANFe4

Receive, handle and store fencing materials on-site

Overview

This standard describes how to receive, handle and store fencing materials.

This standard is designed for fence installers.

This standard covers:

- Receiving fencing materials
- Safely unloading and handling fencing materials
- Storing fencing materials to ensure access when required
- Safely storing fencing materials to prevent damage or loss.

If you are lifting equipment you need to be appropriately trained and certificated in line with current legislation.
