

LANGa10v1

Care for animals used in support of gamekeeping and wildlife management

Overview

This standard describes your role in maintaining the health and well-being of animals used to support gamekeeping activities. It relates to the work activities that you undertake to feed, water and care for their health and well-being. This standard is aimed at those who work in game conservation on either a full- or part-time basis.

To meet this standard you will be able to:

1. feed animals
2. water animals
3. exercise animals
4. maintain the condition of animals

This standard relates to the following applications or context:

Identify feeding requirements in terms of:
food type
feeding times
feeding routines
feed quantities

Select feed by:
type
quality
quantity

Monitor condition and behaviour in terms of:
appearance
posture
movement
bodily function
social interaction

Ensure animals have at least one of the following cleaning opportunities:
to clean themselves
to be groomed

Provide for the exercise needs of animals at:
work
rest
