

SCDCCLD0247

Support the acquisition of a new language through immersion by children in an early years setting

Overview

This standard identifies the requirements when supporting the acquisition of a new or additional language within the context of a variety of childcare settings. It will enable you to work with children whose home language is different from the language of the setting. This standard is to enable you to contribute to the culture of language immersion and will involve keeping families updated on the child's progress, contributing to assessment and planning and contributing to the child's language-learning abilities. This standard relates to complete immersion in a new language and is not designed to cover partial immersion where a new or additional language is taught as part of a curriculum
