

## SFHCHS158

Enable individuals from diverse linguistic and cultural backgrounds to access Speech and Language Therapy services

---

### Overview

This standard covers working alongside and under the supervision of a Speech and Language Therapist to support children and adults with communication difficulties and whose first language is not English. This involves enabling equity of Speech and Language Therapy services to individuals from ethnic minority groups, and empowering and enabling parents, carers and significant others to facilitate the individual's communication skills.

Users of this standard will need to ensure that practice reflects up to date information and policies.

---

### Performance criteria

*You must be able to:*

- P1 provide accurate interpretation where needed to ensure effective communication between the Speech and Language Therapist, individual and significant others
- P2 assist the Speech and Language Therapist to reach a differential diagnosis by advising on any linguistic and phonetic aspects of communication specific to home language or culture
- P3 undertake delegated aspects of speech and language therapy programmes in the individual's preferred language, in line with your scope of practice and local policies and procedures
- P4 provide speech and language therapy related care and support to individuals and significant others as appropriate and tailored to their cultural needs
- P5 assist the Speech and Language Therapist in preparing, producing and ordering materials suitable for use with bilingual/non-English speaking individuals
- P6 offer appropriate and detailed linguistic and cultural advice and information to the Speech and Language Therapist and other members of the multi-disciplinary team to support the individual's care pathway
- P7 support the Speech and Language Therapy service in identifying potential barriers to individuals accessing services
