

SFHCHS28

Support and enable individual undergoing dialysis and their carers to obtain and maintain dialysis equipment and materials

Overview

This standard covers providing support to individuals undergoing dialysis and their carers to enable therapy to take place at home. This applies to all types of renal dialysis therapy and involves supporting individuals and carers to obtain and maintain their dialysis equipment and materials.

It is recognised within this standard that support and advice will always be given as part of an overall plan of care determined by professionals, including nurses, doctors and social workers within the care team.

Users of this standard will need to ensure that practice reflects up to date information and policies.
