SFJ BB3
Identify individuals at risk of committing anti-social behaviour or offending

Overview

This standard is about working with colleagues and other agencies to identify individuals at risk of anti-social behaviour and/or offending.

This standard refers to the problematic behaviour of individuals. This may be anti-social, challenging or offending, and means that the individual is at risk of offending/reoffending.

Where an assessment tool is used, this can be paper-based and/or electronic.

Target group
This standard is applicable to those responsible for preventing anti-social behaviour/ offending by individuals.

SFJ BB3
Identify individuals at risk of committing anti-social behaviour or offending

Performance criteria

You must be able to:

P1   liaise with identified local schools, police and other relevant agencies to identify individuals with problematic behaviour

P2   identify why the agencies consider particular individuals' behaviour to be problematic

P3   gather relevant information from other sources regarding individuals identified

P4   assess whether the individual's behaviour and the impact of the behaviour is problematic

P5   review circumstances to identify factors that may be contributing to the behaviour

P6   identify individuals where the risk of committing anti-social behaviour or offending warrants further assessment, and set out a reasoned justification

P7   recommend to the relevant person in your organisation the steps to be taken and agree the way forward

P8   update relevant agencies on progress within required timescales

P9   maintain accurate and up to date records of progress

P10 use standardised assessment tools in line with your organisation's procedures
