

## SFJCCBD1.1

### Manage knowledge in your area of responsibility

---

#### Overview

This unit is about managing knowledge – salient information and expertise – in your area of responsibility in line with agreed standards and processes. It involves being clear about how knowledge is created, developed and shared and encouraging people to use knowledge management standards, systems, tools and processes so that knowledge is effectively captured and shared with those who may benefit from it. It also involves protecting intellectual property from unauthorised use.

The unit is recommended for middle managers who have responsibility for managing knowledge in their area of responsibility.

## SFJCCBD1.1

### Manage knowledge in your area of responsibility

---

#### Performance criteria

*You must be able to:*

- P1 identify where key knowledge is created, developed and shared in your area of responsibility and how it is exchanged with other departments or organisations
- P2 identify and access networks, communities and other sources of knowledge relevant to your area of responsibility
- P3 implement agreed standards and processes that support knowledge creation, development, sharing and capture and which ensure that valuable knowledge is recorded
- P4 make available the systems and tools required to support knowledge management
- P5 provide support and guidance to ensure people are able to use knowledge management systems and tools effectively
- P6 identify where work practices and behaviours hinder effective knowledge management and implement any changes required
- P7 encourage people to share knowledge and use knowledge management standards, systems, tools and processes
- P8 monitor the use of knowledge management standards, systems, tools and processes in your area of responsibility to ensure that knowledge developed through individual and group work activities is effectively captured and made available to those who may benefit from it
- P9 protect intellectual property from unauthorised use
