
Overview

This unit is about managing work activities and resources in your area of responsibility in order to minimise the negative impact – and maximise the positive impact – they may have on the environment. It involves organising work activities and the use of resources efficiently, understanding their impact on the environment and finding ways to reduce their negative and increase their positive impact. You may need to seek advice from environmental specialists when carrying out this function.

The unit is recommended particularly for first line managers and middle managers.

SFJCCBK1.1

Manage the environment impact on your work

Performance criteria

You must be able to:

- P1 organise work activities and the use of resources in your area of responsibility so that they
 - P1.1 are efficient and effective
 - P1.2 comply with legal requirements and environmental policies
 - P1.3 minimise the negative and maximise the positive impact on the environment
- P2 identify the environmental impact of work activities and the use of resources in your area of responsibility
- P3 report promptly any identified risks to the environment, which you do not have the ability to control
- P4 encourage people in your area of responsibility to identify opportunities for, and contribute to, improving environmental performance
- P5 identify and implement changes to work activities and the use of resources that will reduce the negative and increase the positive impact on the environment
- P6 communicate the environmental benefits resulting from changes to work activities and the use of resources
- P7 obtain specialist advice, where necessary, to help you identify and manage the environmental impact of your work activities and use of resources
