

## SFJ CM05

### Develop recommendations from the results of the intelligence analysis methodology

---

#### Overview

This standard is about developing recommendations from the results of the intelligence analysis methodology. You will need to review all the available information, identify potential recommendations, develop a rationale for the selection of recommendations and comply with relevant legislation.

## SFJ CM05

### Develop recommendations from the results of the intelligence analysis methodology

---

#### Performance criteria

*You must be able to:*

- P1 review all available information arising from the analysis methodology
- P2 identify the potential range of recommendations that are available
- P3 explore the advantages and disadvantages of each potential recommendation
- P4 identify potential recommendations that are appropriate, feasible and realistic in consultation with key stakeholders
- P5 develop a clear rationale for the selection of the recommendations, in accordance with the terms of reference
- P6 comply with all relevant legislation, codes of practice, standards, protocols, procedures and guidelines

## SFJ CM05

### Develop recommendations from the results of the intelligence analysis methodology

---

#### Knowledge and understanding

*You need to know and understand:*

- K1 how to identify the potential recommendations
- K2 the types of advantage and disadvantage that could be explored
- K3 how to assess and ensure that recommendations are appropriate, feasible and realistic
- K4 why it is important to provide a clear rationale
- K5 the types of issues that could arise and the potential consequences
- K6 the relevant national, local, professional and organisational requirements relating to information usage, its handling and analysis
- K7 the reasons why it is important to comply, and the potential consequences of non-compliance, with relevant legislation, codes of practice, standards, protocols, procedures and guidelines
