

SFJ CM06

Create an intelligence analysis product to influence and support decision making

Overview

This standard is about creating an intelligence analysis product to influence and support decision making. You will need to review the terms of reference as a result of the findings, produce an intelligence analysis product that meets the needs of the recipient, and ensure the product is accurate, current, relevant, timely and sufficient.

SFJ CM06

Create an intelligence analysis product to influence and support decision making

Performance criteria

You must be able to:

- P1 review the terms of reference as a result of the findings of the analysis and produce a product in a written form appropriate to the needs of the recipient
- P2 ensure that the intelligence analysis product you provide is accurate, current, relevant, timely and sufficient
- P3 ensure that the intelligence analysis product is supported by reasoned argument and appropriate evidence
- P4 ensure that your records of the intelligence analysis product are clear and accurate
- P5 comply with all relevant legislation, codes of practice, standards, protocols, procedures and guidelines

SFJ CM06

Create an intelligence analysis product to influence and support decision making

Knowledge and understanding

You need to know and understand:

- K1 the relevant terms of reference
- K2 how to review the objectives within the terms of reference with regard to results of the analysis
- K3 the purpose of the intelligence analysis product and how to produce it
- K4 the importance of the accuracy, currency, relevance, timeliness and sufficiency of the intelligence analysis product
- K5 how to use reasoned argument to influence and support decision making based on your analysis
- K6 the procedures and necessary content of records of the analysis, including the assumptions and decisions made at each stage
- K7 the relevant national, local, professional and organisational requirements relating to information usage, its handling and analysis
- K8 the reasons why it is important to comply, and the potential consequences of non-compliance, with relevant legislation, codes of practice, standards, protocols, procedures and guidelines
