

---

#### Overview

This standard is about managing work activities and resources in your area of responsibility in order to minimise the negative impact – and maximise the positive impact – they may have on the environment.

It involves organising work activities and the use of resources efficiently, understanding their impact on the environment and finding ways to reduce their negative and increase their positive impact. You may need to seek advice from environmental specialists when carrying out this function.

The standard is recommended particularly for first line managers and middle managers.

## SFJCPS8.5

### Manage the environmental impact of your work

---

#### Performance criteria

*You must be able to:*

- P1 organise work activities and the use of resources in your area of responsibility so that they
