

## SFJPF2.1

### Prepare for and participate in quality audits

---

#### Overview

This unit is about preparing for, and participating in, quality audits of your area of responsibility as part of a formal quality management system, such as ISO9001:2000 or sector-specific systems. The key to a successful audit outcome is to ensure that work consistently meets quality standards and complies with relevant procedures. Preparation for the audit involves checking all relevant documentation is up to date and readily available for the audit, whilst active participation in the audit can ensure that any non-conformances are addressed and potential improvements to business processes, quality standards and/or procedures are identified.

The unit is for managers working in environments with formal quality management systems who are required to participate in quality audits.

## SFJPF2.1

### Prepare for and participate in quality audits

---

#### Performance criteria

*You must be able to:*

- P1 establish clearly the quality standards and procedures that apply to your area of responsibility
- P2 monitor work in your area of responsibility to ensure it consistently meets quality standards and complies with procedures
- P3 check that all relevant records and documentation are complete, up to date and accessible
- P4 check that any corrective actions agreed in previous audits have been taken and that any recommendations have been considered and acted upon, where appropriate
- P5 provide the auditor with access to all relevant information, records and documentation
- P6 discuss with the auditor the results of the audit and agree appropriate corrective actions to remedy any non-conformances and the date by which the actions should be carried out
- P7 discuss with the auditor any areas where business processes, quality standards or procedures could be improved
- P8 plan to carry out any agreed corrective actions and ensure that these are carried out by agreed dates
